

# Canvas Breakout Rooms for Flame

Our new breakout room feature is a great way for students and teachers to collaborate in ad-hoc video conference meeting rooms. Integrated within the Canvas Learning Management System (LMS), it expands the capabilities of our Flame video conferencing system so that teachers and students can collaborate more effectively within the LMS while leveraging existing course workflow.

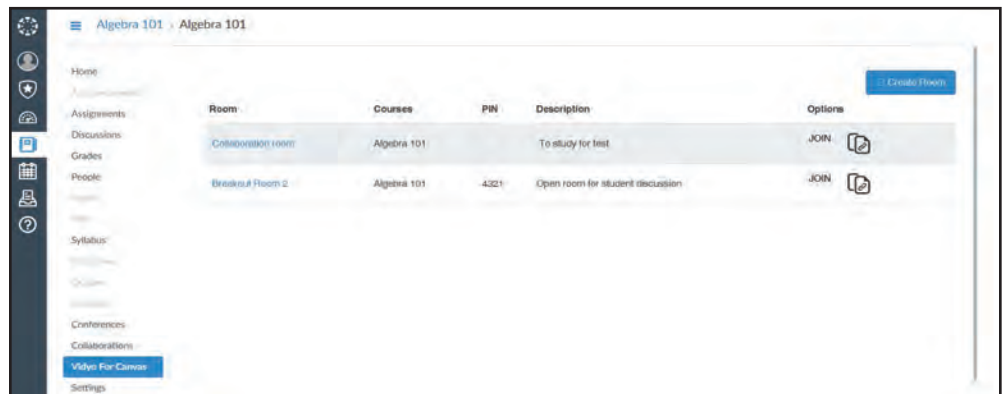

## Functionality Simplifies Video Collaboration

Teachers and students can now quickly assemble in break out rooms to work on reasearch, assignments, have one-on-one sessions and more from directly within the LMS.

## Applications

- Student research and collaboration
- Virtual classroom for online students
- Private one-on-one sessions
- Group discussions
- Live guest speaker lectures
- Interactive online instruction
- Lecture capture/replay/streaming
- Instructor training/continuing education
- Compliance trainings
- Alumni outreach
- Student recruitment
- New student orientation
- Student thesis submissions

With our Vidyo for Canvas module both teachers and students can remain inside the Canvas LMS and leverage video conferencing in a variety of ways:

- View recorded video assets
- Create rich media assignments
- Set meeting room privacy locks
- Document/media sharing
- Associate documents with video assets
- Schedule open office hours in video rooms
- Call other users directly
- Add video conferences to Courses
