

IDVideoPhone Cloud Service

Interact with associates, colleagues or customers like never before! A breakthrough in video technology provides a business-class high definition video conferencing experience where interactive visits are just a mouse click away. Imagine your own virtual meeting room in the cloud where you can collaborate and discuss topics as if you were both physically present - with affordable monthly packages that cost no more than most cell phone plans.

Personal Telepresence and Collaboration over the Internet

A virtual meeting room is just like having your own personal meeting space in the cloud, complete with a lock, privacy shade and access code. You can open up your room to the general public for an informal drop-in to discuss a new business idea, product rollout or preparing for the paper due on Monday. You can also set up a pre-defined time for a formal meeting and invite on-line guests who aren't even IDVideoPhone subscribers. Your room is always there and accessible from any computer with Internet access. A username and password is all you need for access and subscribers can choose multiple unlimited-use plans including audio bridge and legacy gateway services.

An Ideal Way to Meet For:

- Healthcare professionals
- Businesses of any size
- Educational Institutions
- Government entities
- Law enforcement agencies
- Construction contractors

Natural Workflow Features Include:

- Access to your own personal meeting room
- Rooms that can host multiple participants
- An access key for locking your room
- The ability to email meeting links to guests
- Audio and video privacy buttons
- Ability to show documents and other information

IDSolutions - Pioneers in Visual Communication Packages

When it comes to providing visual communications, few companies can compete with our video offerings and customer support for the business, medical, government and educational community. IDSolutions' award winning design and integration capabilities combine exceptional quality, user simplicity and manageability to make desktop video communications a productive, true-to-life experience. IDVideoPhone delivers SVC based high definition video communications services that are unsurpassed in the industry and fully interoperable with existing H.323 based systems from Lifesize, Polycom and Tandberg.

Features, Options and Pricing

Getting Started: On-line system makes ordering a breeze

Our on-line ordering system makes set-up a breeze. Once an account is created you will be provided with user instructions and we can even initiate a test call. Unlike other personal telepresence solutions, no special hardware is required and PC, MAC, iPhone/iPad and Android devices are all supported. The IDVP service features guest access codes, pull down privacy shades, audio/video control, data sharing, multi-point conferencing and more. Getting started is easy:

Go online to the IDS website to establish an account

Connect a webcam, speaker and microphone if using MAC or PC

Login to your IDVP account and search for a user to call

Meet one on one or with multiple participants

System Plans - IDVideoPhone is purchased per user; each have their own personal accounts with unlimited minute usage. With **IDVP-Lite** all users share a tenant space with a private room, much like a professional office building is shared among multiple tenants, with all users listed in the site directory for easy look-up and calling.

The **IDVP-Pro** service offering provides a private tenant space and room, much like a private office building with a single tenant, for those organizations looking for an additional level of privacy. It allows you to also interact with other Vidyo systems for a variety of applications including court systems, virtual hearings, probation meetings and more.

The **IDVP-Plus** service offers the same features as IDVP-Pro with larger room sizes, H.323 Gateway and audio bridge service. All IDVP-Plus packages must be purchased in a quantity of 5 or more users.

IDVideoPhone Purchasing Information - IDVP is available in a monthly Lite, Pro or Plus plan per user.

IDVP-Lite - Package is available for one or more users in 2 separate plans with a 25 user room size:

\$30.00/user (Basic) includes unlimited minutes, shared tenant space with private room and on-line (web) help-desk access

\$50.00/user (Intermediate) same features as Basic with live toll-free help-desk support

IDVP-Pro - Package is available for one or more users with audio bridging and gateway calling options:

\$100.00/user includes unlimited minutes, private tenant space with 25 user room and live toll-free help-desk support

IDVP-Pro Room System: Connect your existing Vidyo Room system to the IDVP cloud service

\$100.00/month per HD40, HD50, HD100, HD110, HD220 or HD230 system*

IDVP-Pro Audio Bridge Option: Add audio bridging capability to your IDVP-Pro service

\$60.00/account with local access number or \$95.00/account with toll-free number. Includes 1000 monthly minutes

IDVP-Pro Gateway Option: Connect to legacy H.323 systems such as Polycom, Cisco/Tandberg, Radvision or Lifesize

\$20.00/SD endpoint or \$50.00/720p HD or \$75.00/1080p HD endpoint allows calls to legacy VTC systems

IDVP-Plus - Packages include unlimited minutes, audio bridge for dial-in participants, web and phone support:

\$49.00/user (Starter) provides a private tenant space, 50 user room size, and SD Gateway capability

\$99.00/user (Intermediate) provides a private tenant space, 100 user room size, HD Gateway and recording capability

NOTE: All new account requests are performed online at <http://www.e-idsolutions.com/IDVP-Order.htm>

Service is billed as monthly recurring. Payment is via PayPal or credit card. Room based video equipment rental is available, please consult with your IDSolutions representative. * NOTE: Room system hardware purchased separately
