

Launch your meeting space to the next level

Global Presence TruTouch System is an integrated touchscreen presentation system that includes high definition video, audio, and web collaboration services. Built for simple operation and deployment for boardrooms to huddle rooms.

Small space, big ideas.

With the advent of more open workspaces, companies are rethinking space and technology limitations in order to maximize productivity. Flexible workspaces have become the norm. Meeting rooms are a place for a small group of people to brainstorm, collaborate or present to bigger audiences and the TruTouch system supports these multi-use applications.

With powerful video, audio, and web conferencing capabilities, conference rooms are more connected than ever. A compact design and easy to use features means no size space is left unconnected.

Global Presence TruTouch System:
